Safety Data Sheet

Propylene Glycol Monomethyl Ether Acetate (PMA)

Code: 05-004-0  Prepared By: APC Laboratory  Validation Date: 03-Jan-2018

1. Identification of the substance or mixture and of the supplier

Trade Name: Propylene Glycol Monomethyl Ether Acetate, PMA
Material Uses: Solvent for printing inks, paints and resin.
Supplier: Asia Pacific Petrochemical Co., Ltd.
165/15 Nirvana at Work Ramintra, Ramintra Road, Anusawari, Bang Khen, Bangkok 10220 Thailand
Telephone: +66 2 157 1555  Call Center: +66 2 147 3555
Fax: +66 2 157 1556
www.apcbkk.com
Emergency Contact: +66 80 204 6789

2. Hazards Identification

GHS Classification: Flammable liquids: Category 3
Signal Word: Warning
Health Hazard: Irritating to respiratory system. Harmful by inhalation, in contact with skin and if swallowed.
Environmental Hazard: Not classified as dangerous under EU criteria.

GHS Pictogram:

GHS Hazard Statements: H226 Flammable liquid and vapour.

GHS Precautionary Statements

Prevention
P210 Keep away from heat/sparks/open flames/hot surface and Non-smoking.
P233 Keep container tightly closed.
P240 Ground/Bond container and receiving equipment.
P241 Use explosion-proof electrical/ventilating/lighting/equipment.
P242 Use only non-sparking tools.
Precautionary措施

P243 采取预防措施防止静电放电。
P280 穿戴防护手套/眼保护/面部保护。

响应

如果皮肤

P303+P361+P353 立即脱掉所有受污染的衣物。用大量水/淋浴冲洗皮肤。
P370+P378 在发生火灾时：使用制造商/供应商或有关当局指定的适当介质进行灭火。

储存

P403+P235 存放在通风良好的地方。保持凉爽。

处置

P501 处置应符合适用的区域、国家和地方法律和法规。地方法规可能比区域或国家要求更严格，必须遵守。

预防性图象

3. 成分/信息成分

化学名：2-丙酮
通用名：PMA
同义名：1-甲氧基-2-丙酮醋酸
CAS号：108-65-6
联合国编号：1993
分子量：132.16
化学式：C₆H₁₂O₃

4. 急救措施

吸入：移至新鲜空气。如果受害者呼吸困难或胸部紧绷，给100%氧气与救援呼吸或CPR如需要，并送往最近的医疗设施。

皮肤接触：立即用大量水冲洗皮肤至少15分钟，如果可用，用肥皂和水清洗。

眼睛接触：立即用大量水冲洗眼睛至少15分钟，同时保持眼睑张开。送往最近的医疗设施进行额外治疗。
5. Fire-Fighting Measures

**Suitable extinguishing media**: Dry chemical powder, Alcohol-resistant foam and Carbon dioxide.

**Specific hazard arising from the chemical**: May produce toxic fumes of carbon monoxide, carbon dioxide if burning.

**Special protective action for fire-fighters**: Keep adjacent containers cool by spraying with water.

**Protective Equipment**: Wear full protective clothing and self-contained breathing apparatus.

6. Accidental Release Measures

**Protective Measures**:

- Observe all relevant local and international regulations.
- Avoid contact with spilled or released material. Immediately remove all contaminated clothing. For guidance on selection of personal protective equipment see chapter 8 this Material Safety Data Sheet. Shut off leaks, if possible without personal risks. Remove all possible sources of ignition in the surrounding area. Prevent from spreading or entering drains, ditches or rivers by using sand, earth, or other appropriate barriers.
- Take precautionary measures against static discharge. Ensure electrical continuity by bonding and grounding (earthing) all equipment.

**Clean-Up Methods**

- **Small spillage (< 200 LT)**: Transfer by mechanical means to a labeled, sealable container for product recovery or safe disposal. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove contaminated soil and dispose of safely.

- **Large spillage (> 200 LT)**: Transfer by mechanical means such as vacuum truck to a salvage tank for recovery or safe disposal. Do not flush away residues with water. Retain as contaminated waste. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove contaminated soil and dispose of safely.

**Other Information**: Notify authorities if any exposure to the general public or the environment occurs or is likely to occur. Vapors may form explosive mixtures with air. Vapors may travel to source of ignition and flash back.
7. Handling And Storage

Handling: Avoid contact with skin, eyes, and clothing. Do not breathe vapours. Extinguish any naked flame. Remove ignition sources. Avoid sparks. Do not smoke. The vapour is heavier than air spreads along the ground and distant ignition is possible. Ensure electrical continuity by bonding and grounding (earthing) all equipment. Do not use compressed air for filling, discharging, or handling operations. Handle and open container with care in well-ventilated area. Do not empty into drains.

Storage: Must be stored in a diked (bonded) well-ventilated area, away from sunlight, ignition sources and other sources of heat. Bulk storage tanks should be diked (bonded). Keep away from aerosols, flammables, oxidizing agents, corrosives. Storage Temperature: Ambient.

Product Transfer: Keep containers closed when not in use. Do not use compressed air for filling, discharging, or handling operations. If positive displacement pumps are used, these must be fitted with a non-integral pressure relief valve. Ensure electrical continuity by bonding and grounding (earthing) all equipment.

Recommended Materials: For containers, or container linings use mild steel, stainless steel.

Additional Advice: Containers even those that have been emptied, can contain explosive vapours. Do not cut, drill, grind, weld or perform similar operations on or near containers.

8. Exposure Controls and Personal Protection

Exposure Standard: Occupational Exposure Limits

- TLV-TWA = 50 ppm (270 mg/m³) (Canada)

Engineering Controls Workplace: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapours below their respective threshold limit value.

Respiratory Protection: Vapor respirator. Be sure to use an approved/certified respirator or equivalent. Wear appropriate respirator when ventilation is inadequate.

Hand Protection: Butyl rubber gloves, Nature rubber gloves, Neoprene rubber gloves, Nitrile rubber gloves.

Eye Protection: Chemical splash goggles (chemical monogoggles).

Other Protection: Use protective clothing which is chemical resistant to this material. Safety shoes and boots should also be chemical resistant.

9. Physical and Chemical Properties

Appearance: Clear liquid
Odour : Specially odour

pH Value : No data available

Boiling Point (°C) : 146 °C @760 mmHg

Melting Point (°C) : No data available

Flash Point : 46 °C

Evaporating Rate : 0.34 (n-Butyl Acetate = 1)

Lower/Upper Flammability limits : 1.5 - 10%V

Vapour Pressure (mmHg) : 38 mmHg @ 20 °C

Specific Gravity : 0.966 - 0.971 @ 20 °C (ASTM D4052)

Density (g/cm³) : 0.964 - 0.969 @ 20 °C (ASTM D4052)

Vapour Density : 4.6 (air = 1)

Solubility in Water : 220 g/L @ 23 °C

Auto Ignition Temperature : 315 °C

10. Stability and Reactivity

Chemical Reactivity : Stable under normal conditions.

Stability : Stable under normal conditions.

Hazardous Polymerisation : No.

Conditions to Avoid : Heat, flame, spark and other ignition sources.

Materials to Avoid : Oxidizing agents, reducing agent, acid and alkalis.

Hazardous Decomposition Products : Thermal decomposition is highly dependent on conditions. Carbon monoxide, carbon dioxide and other organic compounds will be evolved when this material undergoes combustion or thermal or oxidative degradation. May form explosive peroxides.

11. Toxicological Information

Acute Toxicity

- LD₅₀ Acute oral toxicity : 8,532 mg/kg , (rat)
- LC₅₀ Acute dermal toxicity : >5,000 mg/kg , (rabbit)

Skin Irritation : Irritating to skin. Prolonged/repeated contact may cause permeated of the skin which can lead to dermatitis.

Eye Irritation : Irritating to eyes. Inflammation of the eye is characterized by redness, pain and itching.
Respiratory Irritation : Inhalation of vapours or mists may cause irritation to the respiratory system.

Carcinogenicity : No data available.

12. Ecological Information

Acute Toxicity
- Fish (Daphnia) : Low toxicity : LC₅₀ 408 mg/l/48 hours

Mobility : Slightly dissolves in water. If product enters soil, it will highly mobile and may contaminate groundwater.

Persistence / Degradability : Readily biodegradable.

Bio-accumulation : Not expected to bioaccumulate significantly.

13. Disposal Considerations

Material Disposal : Recover or recycle if possible. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste classifications and disposal methods in compliance with applicable regulations.

Container Disposal : Drain container thoroughly. After draining, vent in a safe place away from sparks and fire. Refer to Section 7 before handling the product or containers. Residues may cause an explosion hazard. Do not puncture, cut or weld uncleaned drums. Send to drum recovered or metal reclaimed.

Local Legislation : Disposal should be in accordance with applicable regional, national, and local laws and regulations. Local regulations may be more stringent than regional or national requirements and must be complied with.

14. Transport Information

Road/Rail Transport ADR/RID
- UN. Number : 1993
- Class/Item : 3
- Hazard Symbol : Flammable Liquid
- Proper Shipping Name : Flammable liquids, N.O.S. (PMA)
- Packing Group : III
